

Tour of ViziApps Studio

Bookmark this link to open ViziApps Studio:

- <http://viziapps.mobi>

ViziApps Studio will start in the Design Tab. The major features of the Design Tab are shown below, and you can also refer to the [Icon Definitions](#) for more detail. Clicking on the **Manage Data** button will enable you to set up and manage the way your app connects to Internet data sources.

Studio Design Canvas

Page Storyboard

Editor Buttons

New Field Buttons

Select App Property

Current App Controls

Also see: [App Management Icons](#)

App Page Buttons

Also see: [Page Management Icons](#)

Manage Data Sources

First click Manage Data in the App Page buttons. Also see: [Data Source Icons](#)

Manage Data Queries

First click Manage Data in the App Page buttons. Also see: [Data Query Icons](#)
